The ACT Of Making Money

In this write-up, I want to help you change the way you think about making money especially online.

This piece is inspirational and motivational, and will activate your sleeping-creative-genuis right inside of you so that by the time you finish reading it, the scales on your very eyes will drop-off.

Now, Do You Want To Make Money Online?

I know the answer inside your chest right now is “YES, Ken”.

Okay, how can you make money?

Let me answer that question for you. The answer to the question above have never changed ever since money was invented. The secret of making money whether online or offline is revealed in this short sentence: “**Find out what people want and give it to them at a price**” or “**Look out for a PROBLEM lots of people are facing, research out the SOLUTION, package the solution and sell at a reasonable price to the same people who need the solution**”.

In fact, you will agree with me that the economy of the world revolves around **buying and selling**. For money to exchange between two hands, there must be a buying and a selling.

If you doubt it, then ask yourself what the banks, oil companies, airlines, manufacturing plants, online marketers like me, etc are doing to earn all the money they are using to *chop life*. Is it not buying and selling?

For money to come to you, there must be an exchange of either **goods and/or services** for money. Think about that! And the best part of it is that making money online is the easiest form of money making empire I have ever seen. With little or nothing but your ideas only, you can start today and in the next 12 months or less, you are dealing in hundreds of thousand (if not millions).

Do you doubt it? Ok, have you heard of FaceBook.com, Google.com, GoDaddy.com, MySpace.com, Yahoo.com before? If yes, then do you know that these online firms are multi-billion dollar empires?

You and I are using FaceBook everyday to chat our loneliness away. But, do you know that the 24 year old guy who founded the online firm is worth more than **\$700million** and that FaceBook is worth about **\$6 - \$10billion**.

Now, go to this site: www.YouTube.com. Do you know that the two young guys who developed that site sold it for **\$1.9billion** to Google after nine months it took-off? They are still in the employ to manage the site effectively.

What of Google.com? It's the most capitalised entertainment company in the world – more capitalised than TimeWarner Company owner of CNN. Google.com is worth more than **\$100billion**.

Now, can you see that there is something these online firms are selling to the public? They are selling so many things like advertising to millions of people around the globe.

I believe you are beginning to see the **secrets to wealth – offer something valuable to lots of people at affordable price and you will never go broke**. And because the internet is being used by hundreds of millions of people around the world, you can get across to somebody in India, China, US, UK, Germany, etc with your products and/or services and make your dough right from your kitchen table wearing only underwears. I mean it. It's real!

Okay, if you think you can escape from using the internet, then it's better you stop living on planet earth. Do you know the brains behind the use of internet? Do you understand that the internet had been in existence in the US for a very long time – I mean in the 60s? American military and higher educational institutions were using the internet long before it became a global trend.

I want you to understand the psychology behind the internet. Ok, let's roll!

Some years ago, because of the nuclear family system in the developed world, they initiated the **clubs**. It's an avenue to take away loneliness. With clubs came street violence, drugs, etc. The same psychology invented the **VHS, VCD and DVD** machines. What they wanted to do is to remove violence from the street.

Ken, how do mean? Okay, if you are watching one DVD plate, won't it take almost 1-2weeks to finish it. You are now being entertained to the fullest right there in your living room.

With the internet, you can connect to your friends anywhere in the world, work full time online like me and collect your pay without stepping out.

Can you see the psychology behind all these inventions? They don't want you to come out again and be a nuisance to the society.

So, you can see where the world is going to. Why not prepare yourself now to cash into the craze? I don't know about you, I'm already in.

However, for you to attract money, you must change the way you think about money. In fact, you must change your mentality.

In Nigeria today or elsewhere, we were taught by parents, society, churches, mosques to go to school, study hard to earn good grades and come out to look for jobs. So, we are programmed right from our homes to think about how to **get** a better job and not how to **create** better jobs.

You can see the difference – **getting and creating**. The two have different psychological make-up.

Let me warn you, you can never be **RICH** by working for a company. Even the CEO/MD of InterContinental Bank Plc, **Mr. Erastus Akingbola** said it.

But you may say, what of all those moneybags in government offices? Let me tell you, they are bunch of thieves and they are really poor. You don't use the material things to measure a man's exploits. You quantify him/her through his/her services to mankind.

Some of these money-bags cannot take risks with their money especially when they are knocked out by government.

Have you read or heard the analysis done by Guardian newspaper on ex-workers of Chevron? These guys live in Chevron houses, drive their cars, enjoy so many things totally FREE of charge. But as soon as they are laid-off, they will die shortly after. Remember, they are paid millions while being laid-off. What are doing with the millions they got?

What made them to die shortly after being laid-off? Answer: they can't cope with the hustles and bustles of life. They can't take risks like me and you with the millions they have in their hands.

So, can you say that such a person is RICH? He is not in my own understanding.

As you can see, the first thing to do to make money is to **change the way you think about money.**

Then, another important thing you should know is that being in business whether online or offline is the same thing as **Farming**. A farmer is the most patient and faithful person in the world. He will first **sow a seed**. The

seed will go into the **fertile** ground and **die**. But the farmer will still have faith that it will **germinate**. The dead seed will sprout out from the ground and he will **take care** of it until it bears **fruit**.

Do you see everything you are doing in life like the farmer especially your business? If not, you will not build a **Money-Making Empire**.

All the corporations you are seeing today started with an **IDEA**. Somebody like me and you thought it out and started farming on the idea until it grew up and bore him large fruits.

What idea can you explore on the internet? Can it solve people's problems? If yes, start farming on the idea. Who knows, you can be the next **NetBillionaire**.

I keep saying that the best thing you can do for yourself right now is to invest in your **Spirit, Soul and Body**. That makes you a **Balanced person**. Stop trying to **have**; start **being**. Because when you must have become something useful, you will start having.

Buy good books written by great people and read. Then, **ACT** on the ideas or information you derived from them.

I recommend that you read **Think and Grow Rich** by Napoleon Hill, **The Law Of Recognition** by Mike Murdock, **Rich Dad, Poor Dad** by Robert Kiyosaki and great books written by men God of like Bishop David

Oyedepo, Pastor E. A. Adeboye, Pastor Chris Oyakhilome, Bishop T. D. Jakes, Dr. Sunny Ojeagbase, etc.

Reading books written by great people makes you to think like them. If I want to enter into the world of Bill Gates what I will do is to buy his book and read. Before you know it, I will start thinking and acting like him.

Let me stop here in order to bring to you the money spinning business that can quickly change your status very soon if you are a smart-hard-working fellow.

I just wrote this piece to inspire and motivate you.

I'm committed to your success,

Ken Nwankwo

How To Make Quick Cash Even If You Are Dead Broke

Discovering The Power Of Selling Packaged Information

As you can see above, you can only make money if you have something you are **selling**. It can be a service or product.

However, from my experience and that of other successful online marketers, I have discovered that it's a lot easier to jump from being broke to making quick lots of cash by selling packaged information. We call it **Infopreneuring or Information Marketing**.

This type of money-making is very simple and easy. Okay, let me explain. You see, there must be something you know that other people would like to get from you. Maybe you are good in mathematics, physics, dancing, singing, talking, helping, writing, counseling, etc. In fact, the list is endless.

Do you know that lots of parents would like their children to excel in those courses? Do, you now that many people are dying to have such information. Why not package an eBook on that particular problem and sell to them for outrageous profit.

Take for instance, women love to look good. Do you know how to make women look good? Do you know how a woman can lose weight? Do you know how she can be in good shape and attractive?

If you know that, why not write an eBook on that, package it and advertise it on Hints or Heart magazine? I bet you, if you sell just 10 copies at **N5,000** each, you have made **N50,000**. This could be from just 1week advert. Repeat the advert for 1month (i.e. 4weeks) and you have made **N200,000** from little investment.

Okay, you don't have capital for advertising on newspapers and magazines. Why not use the online forums. I started mine from www.NairaLand.com. The first time I started this business, I made **N6,500** the first day and **N39,000** profit that particular month. I couldn't believe it. A fresh starter like me.

When I was hearing about information marketing, I thought it was hype until I made some dough out of it. That inspired me to use every arsenal to brand myself for more sales and I have not being disappointed.

In fact, I started using the newspaper this year (around April, 2009). All my sales are done through online forums. I made sure I branded myself to the extent that I don't even need to post again on forums but I will be making sales day-in, day-out without lifting a finger.

Do you know what I did above? It's a secret that I only know about very well that most so-called Info Marketing Gurus doesn't know. This particular secret brought me **N7,500** in less than 2 hours after commenting on someone's post on SDLCNigeria.org/forum last month.

Okay, let me tell you the secret. You see, whenever someone view my postings, he/she may click on any of the links above and read what I have there. It didn't stop there. If someone is searching for how to open a PayPal account on Google.com, there is a great tendency that one of my postings on the forums will appear because of the signature file. Can you see the idea?

Some of my subscribers have asked me why is it that whenever they do a search on the internet, my postings and name will come up. Boy, this is the secret. It's a well-thought-out strategy that I'm using very well. This idea have earned me lots of cash without doing any expensive advert on newspapers and magazines.

I do hope you are getting the gist. So, discover what people are dying to learn or have, work out the solution, package it and sell it to them at an affordable price. Please, don't forget to pocket your profit.

What do you need to start-off? You just need your bank account (sms alerts enabled), email address and GSM phone number.

When clients pay into your bank account, you will receive the sms alerts and you can forward the eBook to them through their email addresses. (If

you want to learn how this is done, just visit my blog: <http://YouAreRicher.blogspot.com> and read the salesletters. You will see how I blend what I just told you).

Now, look Ken, I don't know how to write. I can't write anything.

Do you know the solution? You can buy a material with either **Master Resale Right** (for example **KENWAP package: www.DotComWealthEmpire.com**) or **Public Label Right** that provides solution and resell.

And this is where most of my subscribers are committing blunder. They are sitting on GOLDMINES without knowing it.

Ken, how do you mean? Do you know that some smart Nigerians have made hundreds of thousands of Naira by selling some of the eBooks I gave out for FREE? If you don't know, then read on.

Some smart folks were selling the Solibay settings, MTN Free Browsing on PC and my other eBooks (both Free and paid) to people at N4,000 each. In fact, a friend from Kaduna told me he was installing it for people at N12,500 in Abuja and N5,000 in Kaduna.

Assuming he sold the idea to 20 so far, now do the mathematics yourself and see what he has made.

You can see how smart they are. Bros, I hail your smartness! That is the spirit of entrepreneurship – finding a solution to a problem many people are having and selling it to them at a reasonable price.

Before I stop, let me give you some case studies that will squeeze out the creative juice in you.

Case Study 1.

Before the last Valentine's day, a smart Nigerian just went to NairaLand.com and did a post there.

He asked all interested ladies that want to go out on Valentine's day with a guy to send in their full names, email addresses, nice pictures, phone numbers and a brief profile to his email address.

Before you know it, he got lots of response. What did he do next? He rushed to a national newspaper and did a classified ad asking interested guys who wish to go out with a girl on Valentine's day to pay N2,000 for a girl's profile.

Do you know that within 4 days, 40 guys paid him N2,000 each? He made N80,000 in just 4 days. Can you see that?

Case Study 2.

Last year, I followed one advert on Success Digest Extra! newspaper. That advert made N450,000 in less than 30 days. How did I know? Read below to know what really happened.

The owner researched out 300 companies in China that wanted sales representatives in Nigeria. He packaged it and was selling each contact N1,500. Within two weeks, he sold 194 contacts and the rest in less than 14 days. That's a whopping N450,000 in less than 30 days.

Case Study 3.

Last year Christmas, I travelled to the village to enjoy the Yuletide. I wanted to use the opportunity to re-collect myself. So, I wasn't doing anything on the internet even though I have access right from my village.

I wanted to do a deep study and enjoy village fresh air (and perhaps some fresh palm wine. Boy, it has been long I took palm wine – maybe 6years ago). But, did you know that it didn't happen as I planned? Between 29th December, 2008 and 5th January, 2009, I made a profit (not revenue but pure profit) of about N55,000 without lifting a finger.

New and old clients were paying for my products when bank services are skeletal. In fact, I transacted a business with someone in Lagos where he paid me in Naira and I bought a product for him using my PayPal account direct from my village.

Internet! Internet!! Internet!!! I have never seen anything like it. Right in my village, my products and services are viewed all over the world through the internet.

It's the same internet that made me got connected to a guy in Sweden whom I helped to browse totally FREE over there.

What a technology!

I believe you got the clue.

Anyway, let's rush to the next issue. It's all about internet scam and how to detect it before you lose your hard-earned cash.

PS: If you want to discover more strategies pertaining to this business, do get my **Cash At The Speed Of Thought** (<http://YouAreRicher.blogspot.com>). Or get my latest package: **KENWAP** (www.DotComWealthEmpire.com). You will get access to lots of information and pdf converter software that I personally use.

How To Detect A Fraudulent Website

I'm writing this piece because sooner or later, you will be doing one or two things online.

So, being naive can cost you some cash here and there; and you may end up believing that the internet is full of scams. No, it's not true. There are lots

of legitimate online businesses. It's only that few '*virus*' are giving it a bad name just like in the offline world where you have *419ners* or other fraudulent activities.

Anyway, life is all about taking risks. What you have to do is to keep updating yourself with information on how to manage risks better and effectively.

Without wasting much of your time, let's get down to business.

The First Step To Take

Do you want to check on a website you saw online selling something that you need before you part away your hard-earned cash? If yes, then read the example below.

Assuming I went to Google.com and checked for HYIP investment (High Yield Investment Program) and I saw so many online firms offering such service. What will I do before I make the payment through Liberty Reserve?

I will first ascertain what other users are saying about them. If they have scammed people before, those grieved clients will write about it online.

Now, I found <http://www.HyiplInvestment.com> and I'm going to check on them.

How, Ken?

Please, read the steps below:

Go to Google.com and type: **“hyipinvestment.com scam”** or **“hyipinvestment.com fraud”** in the search bar and press Enter button.

The screenshot shows a Google search for "hyipinvestment.com scam". The search bar contains the text "hyipinvestment.com scam" and a "Search" button. Below the search bar, the results are displayed. The top result is a sponsored link from "www.bbbmoneynow.org" titled "Top Scams & Money Info". Below this, there are several organic search results, including a forum post from "www.ministryofgold.com" titled "Scam!!! - HYIPInvestment Forum > HYIP ...", a forum post from "forum.hyipinvestment.com" titled "REAL online Forex SCAM - HYIPInvestment Forum > HYIP Discussion", a list titled "HYIP Scams List - Not Paying High Yield Investment Programs Scams", a page titled "www.hyipinvestment.com - HYIP Investment Programs List Best HYIP ...", and a page titled "Hyipinvestment.com and Hyipdiscussion.com SCAMS USING ADSENSE!!". On the right side of the page, there are several sponsored links, including "Scam HYIP - All Sca", "Is HYIP program payi", "Work At Home Are S", and "Earn money easy".

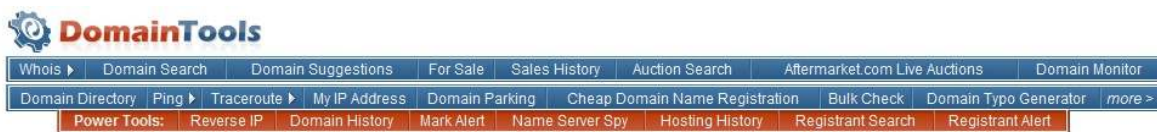

The webpage above will appear. From here you can click any relevant link (especially forums) to see what other people are saying about this website and their offers.

Don't just rely on one forum or link. Do your thorough research before you jump in.

If they have scammed people before, you will see it. That will make you to be on guard.

The Second Step To Take

After checking on Google.com and you still want to go deep. Just go this site: www.Whols.sc and you will see a webpage like the one below.

Whois lookup and Domain name search

- Domain Tools supports many other types of searches besides whois records:

What are the important information to check on?

1. Check when the domain was registered and when it'll expire. If it's new and will expire in a year. Please, be cautious. A HYIP investment that is new will grab people's money and run away later. If you are smart and lucky enough, you can invest when they came out newly and disappear when lots of people start flocking to their site.
2. Check the phone numbers of the domain owner. Try to call that number. If you hear a fax tone, then run. It's an indication that the owner started from day one to rob people of their money.
3. Also, if the phone rings, then check the name of the domain owner. Place your call again and ask the person at the other end that you want to speak to the onwer of that domain (I mean call the name of person. Assuming you saw Charles Carlton, just say, "Can I speak to Charles Carlton?"). If he/she doesn't have idea of the name, please start running.

There are other ways but I think with this basic knowledge, you will save yourself from online scams.

Before I forget, I launched a product that deals on so many money making ideas on the internet. I titled it **KENWAP – Ken Nwankwo's Wealth Accelerator Program**. (You can see more about this stuff by clicking: www.DotComWealthEmpire.com).

It's loaded with time-tested info that can transform the financial life of a **Complete Idiot** to the extent that your nosy neighbours will start calling you a **THIEF** if you don't take time.

KENWAP contains more than **50** eBooks, software and videos that I and other Internet Marketers around the world wrote ourselves. It contains GREAT Ideas that those who invested in the package are sending email and text messages saying "**Thank You**" for opening their eyes to the world of *Internet Super Profit system*.

Now, read some of them: (**Please, these were unsolicited testimonies from real KENWAP investors and they are verifiable**).

KENWAP? It's real eye-opener!
Thanx a great deal pal.

A Shocking, Great Testimony From A 16yr Old Student Of Mine.

"PRECIOUS DOLLAR BLASTS" <preciousmoneyclub@gmail.com>

To: "Ken Nwankwo" <kkangroup@yahoo.com>

Not to bother, after all you are my boss.

In fact, am sorry for not to have said thank you to you for a long time now.

In fact boss, allow me to confess the truth to you now.

I am currently a 16 year old boy but trust me for sure i am now matured that i can handle what a 40 year old man can't.

Can i be excused to tell you my story. when i first knew you which was december 2008, i was 15 years then and i just finished secondary school, when my mum bought us a desktop computer. then i decided to connect it and i swear to God, the 3,000 naira i paid you then was my only cash and i paid you that money with my last hope.

Thanks that later i got connected to the internet but after a week or two i became dead broke that i can't even leave my house cos of cash and that was the time i called you and asked for help. that was the day you introduced me to Nairaland and blogger and just like God opens the door of blessing to me, you brought a light to my life.

Already, am used to finding out ways myself cos that's what my mum taught us. aftermath i started earning little from N1,500 a week to N4,500 a week. getting used to things, after subscribing to you and kept on following your footsteps... i learnt a secret from you.

that was the fact that you use the strategy to excel and you always promote yourself from 1 grade to the other, then i started learning how to apply strategies in my system of marketing then everything came like a shocker bomb when my income exploded. Oh mY GoD! i can't believe it when i went into reAL strategies, i started earning from N5,000 daily to over N7,000 daily. Currently, my boss my average income daily is over N13,500 and i can't even still believe the fact that i earned **N27,500** only today. Every month i make sure i select out **N100,000** from my account to my main bank account, i started doing this last 3 months and sincerely that's why most people do call me cashmoney now cos my sudden rise to success still left a blazing scar in their memories, good that am an undergraduate (level 100), getting things done on my own not to worry about my school fees nor handouts or any sort of payment. Currently, am planning to save over **1.5 million Naira** and venture into electronics business by my level 200 in the university by Gods Grace. i knew am not supposed to be telling you all these, but as yourself, what could have been of Precious Ngwu by now without you?

Boss, i leave that question to you and am expecting an answer from you my saviour.

Stay cool. God bless, a day will come when i will learn to appreciate you in a big way and say thank you for cleaning away financial tears from my eyes. You are the best.

God bless you

This is the first step you need in creating wealth. Your previous mindset about money have to be changed entirely so that you create wealth and be rich.

Cheap Browsing Package: This package will help you access the internet very cheap through MTN and Zain sim cards using your phone as a

modem. The best part of it is that I gave you ideas on how to sell those services and be making up to **N50,000/month**.

Online Payment Accounts Demystified: It's all about opening and verifying your PayPal account even if your country was banned by PayPal. More so, you will be able to open a ClickBank account, secure a free (and paid) US phone number, get a US virtual address and other things. What of making cool cash like **N85,000** monthly opening and verifying such accounts for hungry Nigerians? I leave you to answer that question.

I will also give you my new eBook on “**How To Change Your IP Address**” which will help you to open and verify online accounts and do surveys/data entries.

Speedy Cash: This package contains 6 eBook including **Cash At The Speed of Thought**. This is all about generating ideas, packaging the ideas, converting the ideas in pdf format, creating wonderful salesletter and selling the ideas for super profit. The ideas in here have generated more than a million Naira for me within few months.

To be precise, I used the ideas in this package around second week of January and middle of March, 2009 to sell a physical product online worth more than **N750,000**.

It's not hard for me to make **N100,000** in a day using the ideas in this package.

Domain Gold: This is the package I'm currently using to invest my money. Within 1week, I have registered and parked **23** unique domain names. I intend making it upto two hundred within a 3 months so that I can make more than **\$100,000** when I sell them off. One of my clients has made more than **\$10,000** from this business since March, 2009.

Super Affiliate Secrets: **11** eBooks on Affiliate Marketing. This's wonderful. My eBook titled: "**Step By Step Guide On Affiliate Profit**" contains two strategies you can employ now and you will see yourself making up to **\$1000**/monthly as a beginner.

CPA Marketing/Hot Online Jobs: **6** well-written eBooks on CPA Marketing, Online Survey, eMail sending jobs, article brokerage and other super ideas. I don't know how to explain this package. You better get it for yourself and read.

I just added some **Data Entry** job sites to this very package. In fact, you will get a secret blog where the owner will link you up to genuine survey sites, data entry sites and work at home sites. You can even ask him some questions and he will answer you real time. The guy makes five-figure income monthly through such sites.

Software/Videos: I included in the software package software like the **pdf converter** that I'm using to write my eBook, online video software, article submitter, etc.

There are also videos on affiliate marketing, article submission, Google adwords, etc.

Still included in **KENWAP** is **Web 2.0**. This package will show you how to use the power of social media sites like MySpace.com, FaceBook, etc to sell lots of products online.

Now, look at the bonus. I want you to go to these sites and view it for yourself. They are worth more than **\$400**. But I will give you direct access to the download page for FREE if you invest in **KENWAP** package right now.

They are:

1. Dominating ClickBank: <http://www.DominatingCB.com>
2. Profti Praxis: <http://www.ProfitPraxis.com>
3. Blogging To The Bank: <http://www.BloggingToTheBank.com>
4. Get More Buyers: <http://www.GetMoreBuyers.com>
5. Commission Blueprint: <http://www.CommissionBlueprint.com>
6. Auto Blogger Software: <http://www.WebEdgeProfits.com>

EXTRA BONUS For First 100 People

Because I want you to succeed, I have included the latest and most effective article writing software called “**Mass Article Control**” for the first **100** people that will invest in **KENWAP**.

This software is superb. It can re-create one article into **1000** different unique articles in less than **30** seconds.

Just get one article, insert it in the software and click one or two buttons and you will have 1000 articles created in less than 30 seconds.

Not only that, it came with an article submitter than submits your re-created articles to 20 article directories in just 60 seconds.

To find out the truth about this unique software, just visit: <http://MassArticleControl.com>. The cost of this software is **\$77**, but if you are among the first 100 people that will invest in **KENWAP**, it's yours for FREE. I mean it!

So, just pay a very discounted price of **N3,500** for **KENWAP** and you will have all these stuff that worth more than **N250,000**.

However, if you check the official **KENWAP** website (i.e. <http://DotComWealthEmpire.com>), you will see that the discounted price is **N7,500**. But since you took a great risk to download and read this FREE eBook, I have secretly arranged that you only pay **N3,500** for the same package (please, don't tell anyone about this).

The problem is that the price of **N3,500** will last for just **14days** from today. After 14days from now, you will pay **N7,500** which is the official price on <http://DotComWealthEmpire.com>

How Do I Invest In KENWAP?

Rush now *before the next 14days* to any **United Bank For Africa** or **Guaranty Trust Bank Plc** or **FirstBank Nig. Plc** nationwide and pay **N3,500** into any of the account details below:

GTBank Plc

Account Name: KKAN ONLINE SYSTEMS

Account Number: 531 513 176 110

FirstBank Plc

Account Name: KENNETH NWANKWO

Account Number: 605 301 002 9403

UBA Plc

Account Name: KKAN ONLINE SYSTEMS

Account Number: 001 901 600 03200

Once you make the payment, text "I have paid for KENWAP" with your name, email address, amount paid, bank paid into and teller number to: **0803.0553675**. When I receive your text and a payment confirmation from GTBank, UBA or FirstBank, I will send you the download links through email.

The Greatest Problem You Will Have

I want to increase the price of **KENWAP** to **N7,500** in *the next 14days from today* (which is the official selling price on <http://DotComWealthEmpire.com>). However, I will only allow **100** (**37 slots out of 100 already taken**) more people to place order for it at **N3,500**.

So, start making moves now or pay higher later. And the worst will be to hear that your enemies have started making a kill online because they invested in **KENWAP** before you.

Remember, opportunities like this need **quick ACTION**.

The choice is yours.

I wish you the best of luck!

I'm committed to your success,
